Cleaned Mixed Corn for sale
Posted by modifier - 16 Feb 2013 15:24

I have about 4000# of cleaned corn for sale at .10 cents a pound at 12% moisture. This corn is in large totes so you will have to bring your own containers and scoop out yourself. Some of the corn is mixed colored corn. There is yellow, white and Blue corn but all burns very well. PM me if you would like some. I am located on the border of Wisconsin and IL, between Rockford IL and Janesville Wisconsin. I have no scale to weigh it so we will figure a 5 gallon bucket weighs 35# @ $3.50 a bucket.
